Installing App on an
Android device

1 Open the app store by tapping on the Google Play Store icon . The Google Play Store app icon resembles a white briefcase with a coloured triangle on it and is called Play Store. It is recommended that all apps for android devices be sourced from the Play Store

2 The quickest way to find the app you wish to install is to use the search function. The search function located on the upper right of your screen near the time and looks like a magnifying glass. Tap the magnifying glass and a keyboard will appear.

3 Type in the name of the app you would like to download and press the magnifying glass on your keyboard. It will be located on the bottom right of your keyboard.

4 Once you have found the app, tap the icon to bring up a window that will outline the application description, screen shots and reviews

5 Press the "Install" button to install the app.

6 Press the "Accept" button if you trust the application. This may take some time.
